introduction

what we do

Route to Market Sales, Marketing and Distribution Equipment

Industries include (but not limited to):

Beverage, Alcohol, Dairy, Tobacco, Cellular, Pharmaceutical, Food Logistics (frozen & perishable), Sanitation & Water Management, Confectionery

Since 1994, Adapt has been an innovative supplier of Route to Market Sales, Marketing and Distribution Equipment. We believe that innovation, design and quality products are the foundation to building long-term relationships with our clients. All our products are proudly designed, developed and produced in South Africa.

Adapt has won many product design awards, with our products being used by notable, global companies including SAB/Miller, INBEV, Coca-Cola, British American Tobacco, Lipton, Distell, Virgin, Pick 'n Pay, Woolworths, etc. worldwide. Our products are exported to more than 25 countries, throughout Africa, South/Central America, Europe and the United Kingdom.

"The secret to our success is that Adapt offers good quality innovative products, at fair prices with exceptional service."
Anthony Driman, Owner.

what we can offer you

- **pioneering solutions which differentiate your brand**
- **cost-effective solutions with a high perceived value**
- **durable performance and quality design**

Adapt can provide you with pioneering solutions that can extend your brand into new markets through cost-effective mobile vending and event branding equipment. The tough, durable performance and design quality of our products ensures an exceptional return on your investment while also providing excellent functionality.

Our vending solutions ensure your products are served to your customers, the way they're meant to be enjoyed - Ice Cold!

accreditations:

choosing adapt

what makes us **unique?**

- multiple applications in formal and informal sectors
- flexible solutions for all needs
- superior product quality
- integrated, innovative design
- advanced hinge system is tamper-proof
- reduced freight costs via optimal packing design

We offer multiple solutions which include informal vending equipment, vaccine carriers, from premium incentives and giveaways to food logistics and sanitation.

Our products are made from cast aluminium moulds, as opposed to steel fabricated moulds, thus offering a far superior quality, greater detail and more aesthetically appealing end product.

The integrated, innovative design offers both an aesthetically appealing product and one that is extremely durable. The advanced hinge system on all products is both tamper-proof and extremely strong, as opposed to other hinge systems, which are easily tampered with and broken.

Our advanced product design has incorporated the single biggest cost of rotationally moulded products, namely the cost of freight, by offering optimal packing into a container to minimise freight costs.

integrated
solutions!”*

our key attributes

why you'll remember us...

- 100% production in South Africa = **SADC and European Union (EUR 1) linked**.
- **Innovative** mobile vending solutions and event branding equipment.
- **Cost-effective** solutions that provide a great return on investment.
- **Durable** performance and quality design.
- **Multiple event solutions** to increase your **brand exposure** and **product sales**.
- **Multiple applications**, from informal vending to high-end gifts, incentives and prizes.
- **Integrated**, innovative design.
- Advanced hinge system is **tamper-proof**.
- Reduced cost of freight through **optimal packing design**.
- **Incomparable strength** due to the “seamless” rotational moulding process.
- **Exceptional insulation** with Polyurethane foaming (5 hours - 5 days).
- **Durability** that has been known to exceed 10 years.
- Products **don't go brittle or fade** outdoors under constant UV rays (min. 5 years).
- Made from **recyclable** materials.
- Integrated product designs that are **practical** and **aesthetically** appealing.
- Products are **custom printed and moulded** in your corporate colour / brand.

Box can be retrofitted with COLD PLATES for increased temperature maintenance.

Lids fold back to 270° for optimum stacking, storage and drying simultaneously.

CODE: ADA059U

retro cooler

Retro Chest Cooler

A throwback to the sixties, the Retro Chest Cooler is an elegant, functional design that gives a classic retro look and feel to any space in-store.

Our Innovative Solution to Informal Vending -

- The Retro Cooler does not require direct electricity. Only the product, or eutectic plates inserted into the Retro Cooler, need to be pre-cooled by an electrical supply.
 - The Retro Cooler does not require any maintenance. It is made from 2 plastic parts (body and hinged lid), and 4 galvanised steel castors which could be easily replaced.
 - The Retro Cooler, which holds between 3/4 cases (pack size dependent) is efficient for sales in a small space rather than using an under-utilised fridge.
 - The Retro Cooler is made of LLDPE plastic, using the seamless process of Rotational Moulding, and does not go brittle or fade in direct UV sunlight (approx. 10 yrs+).
 - The Cooler is supplied on heavy-duty castors for easy portability.
- The Retro Cooler's PU foamed walls offer temperature maintenance between 2-4 days. The Retro Cooler also includes a "magnetic fridge seal" ensuring a perfect seal every time.
- Plastic used is recyclable.
 - Custom colours & branding available with x4 branding panels.
 - The eutectic plates are pre-chilled "cooler blocks", which are reusable and therefore ECO friendly.

Features -

- PU Foamed for optimal insulation
 - 4 x Castors
 - Recessed back to retrofit wire baskets for merchandising bread/ newspapers/ sweets, etc.
 - Recessed graphics
 - Drain plug
 - Optional bottle opener
- MAGNETIC SEAL for optimal sealing during SELF-SERVICE.
- 6 Bottle display

Size -

- 797mm L x 663mm W x 770mm H

Capacity -

- 100 Litre capacity
- Packout: PET (500ml) = 120
(includes eutectic plates + ice)

Bush Box

Box fits under the seat of a tiered bush vehicle

Soft-Shell Bush Boxes

The new range of Soft-Shell Bush Boxes offer a lightweight alternative to the heavy-duty Bush Box45. The soft-shell cover is lined with a lightweight insulation material and finished off with a heavy-duty, single wall, waterproof plastic liner for any mishaps which may occur. The liner can be easily removed, washed and returned for ease of use. Even though the temperature maintenance may not meet that of the Bush Box45, it will be more than sufficient for those 3-5 hour outings in the bush or to the beach etc.

outdoor coolers

Official supplier of:

INTRODUCING WILD COOLERS®

Africa's premier range of high performance, outdoor cooler boxes. Built for bush, bundu and sea with extra-thick insulation, tamper-proof mechanisms, and almost-everything-proof rotomoulded construction. Simply pack them, stack them and go. They'll keep their cool despite a rocky ride, determined wildlife or anything else your next expedition throws at them. There are always surprises in the wild – but a busted cooler box need not be one of them.

Contour Waste Bin

A durable waste bin for your next event. This product is a classic replica of the traditional Coca-Cola Contour bottle made into a waste bin. It stands 1.5m high, which allows for a powerful branding opportunity and statement by Coca-Cola for their support of recycling initiatives.

The waste bin is made from our own recyclable material, which is extremely durable and does not fade or go brittle outdoors. This can be guaranteed for 10+ years.

Make a statement at your next event and show that you support the environment by offering a customised waste bin to recycle rubbish.

*"A great solution
for keeping your events
clean and rubbish free!"*

event bars

Maxi Bar

The Maxi Bar provides a mobile bar solution to promote your brand at any large sports or social event.

Storage Space -

Internal rack holds:

- 9 x 750ml bottles

External rack holds:

- 7 x 750ml bottles
- Money for change etc.
- Lemons, limes, swizzle sticks etc.
- Any combination of the above elements

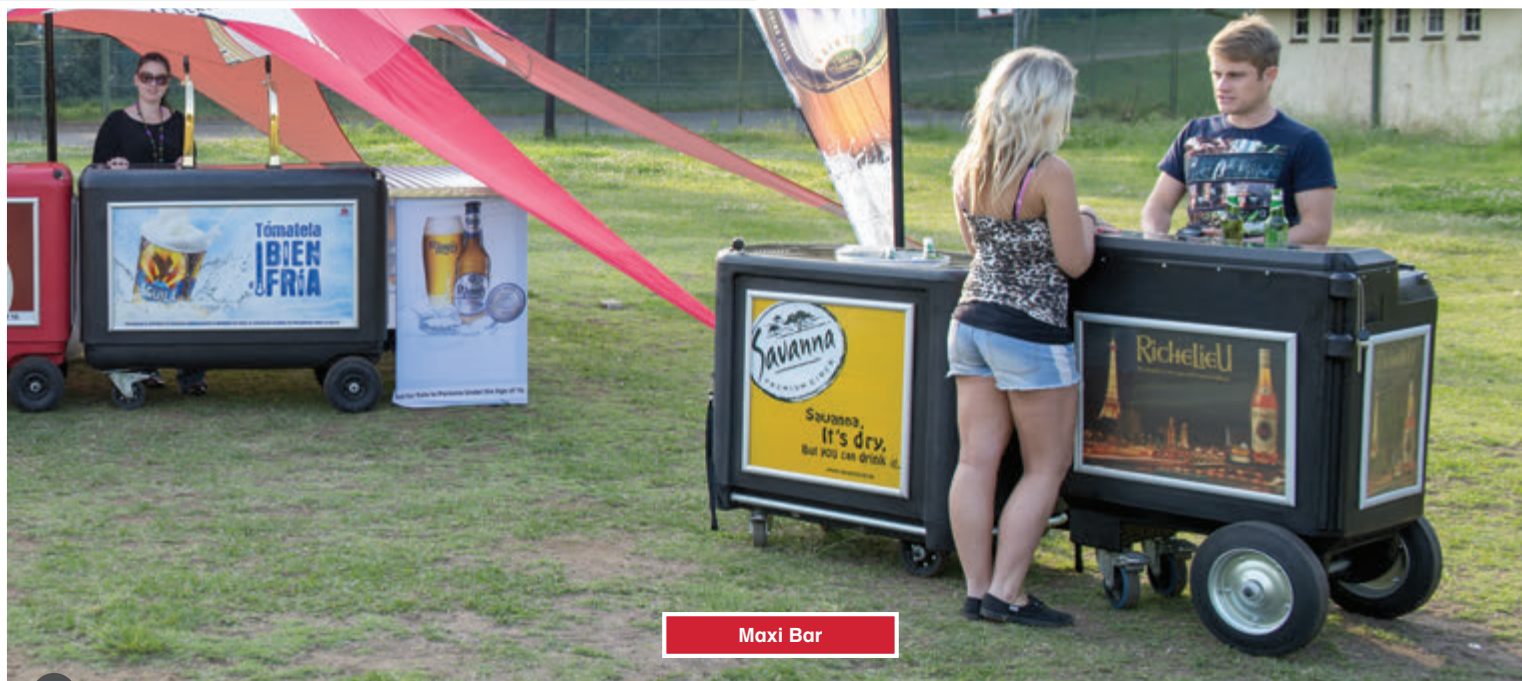

Internal compartment holds:

- Approx. 80L of ice & mixers (eg: soda etc.)
- Spirit rack of 9 x 750ml bottles

External rack can be removed and placed inside the bar for storage and transport.

CODE: ADA028

Maxi Bar

Captain's Table

Unique new table used for multiple, beverage serving applications.

Benefits -

- This product creates a new & unique consumption point, to take serving pressure off the bar & waitron staff for approximately 6 to 8 people.
- Creates an informal and social self-serving table for friends and colleagues.
- There's no "wastage" usually absorbed by the bar, as the customer pays per bottle and not per glass.
- The table could be "booked", with a minimum purchase (eg: 1 x brandy & 6 x mixers; 6 x quarts of beer; 4 x bottles of wine; 1 x shooter bottle etc.) = increased sales.

CODE: ADA030

event bars

CODE: ADA074

Event Bar

The ultimate vending bar to dispense cans and bottle on ice at your next event.

Benefits -

Guaranteed Cold Beverages

- You will have cold beverages as long as you add ice, due to the double walled PU foamed insulation.
- Sliding counter drawer for easy access.

CODE: ADA031

Event Bar with Header Board

Event Bar

Speed Bar

Benefits -

Guaranteed Cold Beverages

You can have cold beverages regardless of the fittings that you use.

Compact

This is one of the most compact, beverage dispensing, mobile trolleys in the world. It combines all the required equipment to dispense COLD beverages within minutes.

Reliable Gas Source

In the applications using a gas bottle, the bottle doesn't touch the ice so the gas doesn't cool to liquid.

Applications -

The SPEED BAR is a mobile vending solution with six different applications for beverage vending. The SPEED BAR is a generic trolley that can be retrofitted with any of the six sets of equipment, to facilitate the following pouring (or any other application you see fit for your vending solution):

1. PRE-mix Draught from Kegs

- Holds 2 x 50 litre or 30 litre kegs
- Cooling mechanism: Cold plate + 16kg ice
- 6kg Gas bottle

2. PRE-mix Draught with SPEED Pouring

- Multiple kegs pre-chilled at 2°C
- Integrated cooling system

3. PRE-mix Carbonated Soft Drinks

- Holds 4/6 x 18 litre kegs
- Cooling mechanism: Cold plate + 16kg ice
- Gas bottle

4. POST-mix Carbonated Soft Drinks

- Carbonator & pump
- Cooling system (eg: cold plate & ice)
- Water and electrical supply
- 1 - 4 Syrup boxes
- Gas bottle

5. Traditional Bar Counter

Will complement any of the above serving solutions to create aesthetic uniformity at your event.

6. Coffee Dispenser

Can be retrofitted to house multiple types of coffee dispensing.

Doors are Removable

Keg Cool

CODE: ADA063U

This product is ideal for keg parties, cocktail parties & functions. A great social centre piece for people to dispense their cold beverages from.

Features -

- The Keg Cool is the latest solution for dispensing PRE-CHILLED (refrigerated) kegs of draught beer.
- OR an AMBIENT keg of draught beer can be inserted with 20kg of ICE and left for 20-24hrs to reduce the beer from 25°C to 4°C.
- The Keg Cool does NOT require a cold-plate, regulator or gas, but rather works on a standard pressurised keg and a hand pump, attached to a free-flow tap.
- 1mm UHI acrylic graphic is reverse printed in full colour, and recessed for reduced damage.
- Custom branding and material colour.
- Drainage plug for easy cleaning.
- Dual use handles.
- Stainless steel free-flow tap.
- Recessed lid for catching spillage.
- 2 x Rubber tie-downs.
- Feet for convenient stacking.
- Optional wheels for easy manoeuvrability.

Size -

- 760mm diameter x 660mm high (with lid)

Capacity -

- 30 litre or 50 litre keg.

ambient vending

Cigarette Cart & Vending Tray

We offer a number of solutions to vending cigarettes in the Informal market. These range from the smallest, most mobile Cigarette Hawker Tray, which can be used in and around busy traffic/ congestion of people, to a collapsible table which allows for more product space, but is only portable between POS stations (static sites), onto a fully mobile Cart, which holds the most amount of stock and is fully mobile to cover large distances, but would be too heavy to carry. The Hawker Tray is made of our heavy duty Polyethylene plastic with polycarbonate security cover, with a comfortable neck/ shoulder strap.

CODE: ADA085

Cigarette Hawker Tray

CODE: ADA040

Hawker Carry Case

The Hawker Carry Case is a robust and durable rigid case which, once opened, allows the hawker to display all ambient products including confectionery, tobacco products, Cellular packs, spices, powdered milk & coffee sachets, etc. The compact and portable case allows for the hawker to take with himself in a taxi to and from his point of sale.

CODE: ADA0108

Hawker Back Pack Case

This Hawker Back Pack Case is an extension of the Hawker Carry Case. It has all the same durability, display and functionality features, but has also been adapted to include self-standing legs and shoulder straps to carry long distances in comfort.

informal kiosks

Kiosk 2000 / Kiosk 1000

Features -

- The kiosks are permanent structures once erected.
- The kiosk is a lightweight & durable outdoor structure.
- Made from a unique formulation which is a non-cementitious, non-metallic, resin bonded compound.
- The kiosk is impervious to moisture, non-corrosive, does not oxidize and is highly resistant to UV radiation.
- Can be made in solid colour obviating the need for the application of paint and the resultant maintenance problem this creates.
- Far lighter than aluminium, steel and fibre cement products.
- Ample space inside for a one door fridge or selection of cooler boxes depending on application
- Shelving and space for display of other goods
- Custom branding & graphics available.
- This unit is easily assembled (approx. half an hour).
- Flat-packs for optimal space management when shipping.

Application -

- Informal outdoor store

Benefits -

- Up to 15x the flexural strength of Vibrated Cement Concrete.
- High resistance to acids, alkalis and other corrosive substances.
- Resistant to biological attack.
- Far lighter than aluminium, steel and fibre cement products.
- 0% water absorption.
- High acoustic and flexibility absorption properties.
- Superior thermal properties and stability.
- Outstanding weathering and UV resistance.
- Rated Highly Abrasion Resistant.

Size -

- Kiosk 2000: 2m x 2m x 2.3m high Weight: 439kg

Tricycle

CODE: ADA070

Optional tricycle for transport.

Heavy-Duty Trike with 4-Case Ice Box

Heavy-Duty Trike with 4-Case cooler box is the latest product in our range. It is a front loader made with reinforced steel frame and 20 inch diameter pneumatic wheels. It has a 350mm floor clearance which allows it to easily cover rugged terrain. An adapted single gear system allows for easy pedalling even with a full cooler box of product. An optional spotlight (night time vending) and mirror are available on request.

home delivery

Multi-Temp Delivery Bike Box

The Multi-Temp Delivery Bike Box is a FIRST, offering the delivery of 2 products, in the same box, at different temperatures. Eg: HOT pizza's and COLD drinks/ milkshakes/ ice-creams. This heavy-duty box is double-walled with Polyurethane foaming for optimum strength and insulation, whether HOT or COLD. You can include a Eutectic/ Cold Plate for increased temperature maintenance, if required.

Packout -

- 4 x 2 Litre Bottle
- 6 x Pizza Boxes

Delivery Boxes (COLD)

CODE: ADA059U

Adapt offer a range of Insulated Delivery Boxes to cover both HOT & COLD needs. The Extreme Ice Box is a 60L solution for retail delivery to homes and offices. It has many key features required for home delivery, namely lockable, 270 degree tamper-proof hinge, stackable to easily packing and cleaning, rubber tie-downs to secure the lid and dual-use handles for easy carrying.

The Delivery Box (SMALL) is a hand-held box which can either be used for HOT or COLD products. Whatever temperature the product you place inside, will be maintained at its 'inserted' temperature, subject to certain conditions (call us to discuss your requirements). This Delivery Box (SMALL) is easily carried in conjunction with a separately managed HOT delivery bag/ box to hold frozen ice-creams/ milkshakes/ softdrinks.

Packout -

- 2 x 2 Litre Bottle + 2 x 1 Litre Bottle

ice management

Ice Tainer

Our IceTainer and Mini Ice Plant are high quality converted containers used to produce 'large block' ice for all your formal vending or cold chain needs. Both products have few moving parts and are easily serviced on site for general maintenance. They can both be run off 3-phase electricity or connected up to a generator for those areas with erratic electricity supply.

CODE: ADA0119

Mini Iceplant

The output is :

Mini Iceplant = Size : 2.25m H x 2.2m x 1.25m

PRODUCING 500kgs OF ICE IN 24 HOURS AT AN AMBIENT WATER TEMPERATURE OF 25°C AND AN AMBIENT AIR TEMPERATURE OF 38°C

Icetainer = Size : 2.25m H x 2.2m x 6m

PRODUCING 2000 - 4000kgs OF ICE IN 24 HOURS AT AN AMBIENT WATER TEMPERATURE OF 25°C AND AN AMBIENT AIR TEMPERATURE OF 38°C

CODE: ADA0120

Single Phase Modular Cold Room Solution

A single phase 220v modular cold room option has been launched. We can now offer a customised refrigeration solution which can be plugged into any domestic power outlet which, for the first time, gives small or remote businesses as well as individuals access to cold room storage.

water management

Wash Basin

This Wash Basin is made from our Polyethylene plastic offering a durable outdoor solution which is used to maintain hand cleanliness at strategic sanitation stations. Both units have a foot pump so there is no need to touch a tap and pass on/ receive any unwanted bacteria. These units are successfully used at outdoor events, camping areas, construction sites, mines, temporary accommodation facilities, etc.

The units are easily filled with a hose-pipe and drained by a tap located at the base of each unit, which if required, can have a hose-pipe mounted to it.

The 40L & 90L references refer to the clean water tank and there is a corresponding 'dirty' water tank within each unit.

Wash Basin (40L)

CODE: ADA0111

Wash Basin (90L)

CODE: ADA0110

"A simple, cost-effective sanitisation solution."

Water Caddy (60L)

CODE: ADA0112

The Water Caddy is a lightweight, durable and robust water tank on wheels which allows for the easy transport of water over long distances. The top opening allows for filling, while the base drain allows for easy drainage without having to turn the unit on its side to empty out the liquid.

3rd world areas are continually plagued by the lack of fresh water within close proximity to where it is needed and therefore the Water caddy can assist here, whether bought or supplied through a CSR project.

*“Easy water dispensing
for any purpose.”*

Stackable Water Containers (25L)

These lightweight Stackable Water Containers are easily filled and located on top of each other for ease of movement. They can then be placed onto a trolley or portable device for movement over distance. The stackability allows for more or less units to be stacked to the appropriate weight of the person moving them.

The top opening allows for filling, while the base drain allows for easy drainage without having to turn the unit on its side to empty out the liquid.
